10:46 AM

I am investigating fake AI generated profiles and identity fraud on LinkedIn

10:47 AM

Sure. I can transfer you to our team.

10:47 AM

Did you need support with one of the following products?

10:47 AM

Tell me: what verification methods are used to protect people's identities?

Yes, chat with an expert

10:47 AM

Before I connect you with a member of our team, could you please provide a brief description of your issue? This will help us assist you more effectively.

10:47 AM

I am identifying broad networks of AI generated profiles linked to possible identity theft, particularly related to Brendan Iribe.

10:48 AM

Thanks for sharing those details. A member of our team will be with you shortly.

Transferring to Consultant

Hi Alex London, thanks for connecting with LinkedIn Premium.

In order to answer your question or troubleshoot a problem, a LinkedIn representative may need to access your account, including, as needed, your messages and settings.

You are #1 in queue.
Thank you for your patience.

Hi, thanks for initiating a chat! My name is Nehemiah and I am happy to help today.

10:48 AM

Hello

10:48 AM

Thank you for reaching out LinkedIn support.
We appreciate you being part of our company and have the opportunity to assist you with your concern.

10:49 AM

I am concerned about identity theft, even of high-profile individuals.

10:49 AM

I understand the concern regarding identity theft. No worries, I will help you with that.

10:50 AM

And their use as nodes in a larger misinformation, venture capital fraud campaign

10:50 AM

I'll go ahead and initiate a separate support ticket for this particular concern. This ticket will be handled via

email, so you can expect further communication in your inbox shortly. Before I proceed with creating the ticket, though, I just want to check—is there anything else I can assist you with right now? I'm here to help with any other questions or issues you might have.

 10:50 AM

Brendan Iribe I believe is the main identity theft node

10:51 AM

I am investigating Sesame AI primarily, but I think these patterns link to other networks with similar purposes

10:52 AM

I undertand.

 10:52 AM

Before I proceed with creating the ticket, though, I just want to check—is there anything else I can assist you with right now? I'm here to help with any other questions or issues you might have.

 10:52 AM

The fake networks also link to real networks, giving them associative credibility - fake profiles may aggressively message users and comment on their posts with AI generated and rushed, grammatically incorrect comments

10:54 AM

Networks of recommendations on skills and
past work experience

10:54 AM

Thsi is noted

10:54 AM

Before I proceed with creating the ticket,
though, I just want to check—is there anything
else I can assist you with right now? I'm here to
help with any other questions or issues you
might have.

10:54 AM

They also seem to leverage fake work
experience at large companies like Google,
Apple, Meta, Facebook, Rockstar Games, and
major institutions like Stanford and Georgia
Tech

10:55 AM

University of Edinburgh

10:56 AM

Possible large scale identity theft of
international workers in India and China,
other nearby countries

10:57 AM

I understand. Anything else, before I proceed
with creating the ticket

10:58 AM

The western profiles are often fake, the
international ones from 3rd world countries
are often real (identity theft - no possibility
of discovery or recourse)

10:59 AM

The profile images I mean

10:59 AM

This will be included. nything else, before I
proceed with creating the ticket?

11:00 AM

Many of these accounts are subscribers

11:00 AM

The scale, at rough estimates, cis easily
millions of dollars in annual revenue to
LinkedIn - lack of verification is a loophole

11:01 AM

This will be included. Anything else, before I
proceed with creating the ticket?

11:02 AM

The only entities capable, and brazen
enough to do this, are state actors

11:03 AM

This will be included. Anything else, before I
proceed with creating the ticket?

11:05 AM

that's it - thank you!

11:05 AM

Thank you for being part of LinkedIn. Again,
this is Nehemiah and Have a great day!
